HUNTERXJOB CANDIDATE ANSWER POLICY

POLICY DEFAULTS

yaml

```yaml
policy_defaults:
  provenance: user_provided
  confidence: 1.0
  scope: global
  allow_autofill: true
  unknown_behavior: ask_each_time
  sensitive_unknown_behavior:
skip_if_optional_else_ask
  never_infer:
    - criminal_history
    - disability
    - medical_information
    - sexual_orientation
    - ethnicity
    - indigenous_identity
    - veteran_status
```

- marital_status
- security_clearance
- SIN
- government_employment
- conflicts_of_interest

STAGE 1: CORE CONFIRMED POLICIES

1. SALARY EXPECTATION

Canonical key:salary_expectation

Canonical question:

What are your salary expectations?

Question fallbacks / matching phrases:

- What is your expected salary?
- What salary are you looking for?
- What are your compensation expectations?

- What is your desired salary?
- What base salary are you seeking?
- What salary range are you targeting?
- What are your pay expectations?
- What compensation are you looking for?
- What annual salary would you accept?
- What is your desired compensation?
- What are your prétentions salariales?
- Desired annual salary
- Expected annual compensation

Primary answer:

```text
60000 CAD
```

Equivalent format fallbacks:

- 60000
- 60,000
- 60 000
- 60K

- 60k
- 60.000
- $60,000
- $60,000 CAD
- CAD 60,000
- CAD 60000
- 60000 CAD/year
- $60K CAD

Strategic salary alternatives, NOT formatting fallbacks:

- 70000
- 85000
- 95000
- 107000

These should live under:

```yaml
salary_strategy:
  primary: 60000
  currency: CAD
```

alternatives:
- 70000
- 85000
- 95000
- 107000

Do not randomly substitute one of the higher amounts merely because 60000 does not match a form control.

---

2. START DATE / AVAILABILITY

Canonical key:start_date
Canonical question:
When are you available to start?
Question fallbacks:

- What is your earliest start date?
- When could you start?
- When can you begin?

- What is your availability date?
- How soon can you start?
- Are you available immediately?
- What is your notice period?
- When would you be able to join us?
- Earliest possible start date
- Date available to begin employment

Primary answer:

```text
Immediately
```

Answer fallbacks:

- Available immediately
- Immediately available
- As soon as possible
- ASAP
- I can start immediately
- Ready to start immediately
- Available now

Secondary timing fallback:

- Within 2 weeks
- In 2 weeks
- Two weeks
- 2 weeks
- Within two weeks
- Available within two weeks

```yaml
rule:
  prefer: immediately

fallback_when_immediate_not_availa
ble_as_option: within_2_weeks
```

---

3. CURRENT EMPLOYMENT STATUS

This should not be represented by one universal

Yes/No because several employer questions mean different things.

A. Are you currently employed?

Answer:

- Yes, self-employed
- Self-employed
- Yes
- Currently self-employed
- I currently run my own business

B. Are you currently working?

Answer:

- Yes
- Yes, I am self-employed
- Currently working

C. Are you unemployed?

Answer:

- No

D. Are you currently employed by another company/employer?

Answer:

- No
- No, I am self-employed
- I operate my own business

E. Current employer / company

Answer:

- Melato
- Melato Brand
- MELATO
- Self-employed at Melato

F. Current role/title

Answer:

- Founder
- Founder & Owner
- Founder / Operator
- Creative Director
- Designer & Creative Director
- Founder & Creative Director

Explanation when free text is available:

```text
I am self-employed and currently run my own apparel brand, Melato.
```

---

4. RELOCATION / WORK ARRANGEMENT / GEOGRAPHY

Relocation

Canonical question:

Are you willing to relocate?

Answer:

- No
- Not open to relocation
- No relocation
- I am not looking to relocate

Ottawa / Gatineau roles

For jobs located in the **Ottawa-Gatineau area**:

```yaml
acceptable_work_modes:
  - onsite
  - hybrid
  - remote
```

Questions:

- Are you comfortable working onsite? → **Yes**
- Are you comfortable working hybrid? → **Yes**
- Are you comfortable working remotely? → **Yes**

- Are you able to commute to the office? → **Yes**, if Ottawa/Gatineau
- Are you within commuting distance? → **Yes**, if Ottawa/Gatineau

Outside Ottawa/Gatineau

```yaml
acceptable_work_modes:
  - remote
```

- Relocate → No
- Regular onsite outside Ottawa/Gatineau → No
- Hybrid outside Ottawa/Gatineau → No unless effectively local
- Remote within Canada → Yes

Current search geography

```yaml
```

```
job_market_priority:
  1:
    market: Ottawa-Gatineau
    modes: [onsite, hybrid, remote]
    enabled: true

  2:
    market: Canada
    modes: [remote]
    enabled: true

  3:
    market: United States
    enabled: false

  4:
    market: International
    enabled: false
```

United States and international jobs are currently OFF.

---

5. BACKGROUND CHECK CONSENT

Canonical key:background_check_consent

Canonical question:

Do you consent to a background check?

Question fallbacks:

- Are you willing to undergo a background check?
- Do you agree to a background screening?
- Are you comfortable completing a pre-employment background check?
- Do you authorize a background check?
- Do you consent to employment screening?
- Are you willing to complete a criminal background check?
- Can we conduct a background check?
- Will you consent to background verification?

Answer:

```text
Yes
```

Answer fallbacks:

- I agree
- I consent
- Yes, I consent
- Yes, I agree
- Agreed
- Consent
- I authorize it
- I am willing to undergo a background check
- I consent to the background screening

---

6. WORK AUTHORIZATION

Canada

Canonical question:

Are you legally authorized to work in Canada?

Answer:

- Yes
- Yes, I am legally authorized to work in Canada
- Authorized
- Legally authorized
- Yes, without sponsorship

Canadian sponsorship

Question: Will you require employer sponsorship now or in the future?
Answer:

- No
- No sponsorship required
- I do not require sponsorship
- I will not require employer sponsorship

United States

Canonical question:
Are you authorized to work in the United States?

Answer:

- Yes
- Yes, I am authorized to work in the United States
- Authorized to work in the US
- Yes, without sponsorship

Important distinction:

```yaml
us_work_authorization: true
us_job_search_enabled: false
```

Work authorization and job-search targeting are two different things.
Do not search for US jobs simply because US authorization is true.

---

7. HOW DID YOU HEAR ABOUT US?

This should be a **context-aware policy**, not a blindly fixed answer.

Canonical key:referral_source

Questions:

- How did you hear about us?
- Where did you hear about this position?
- How did you find this job?
- Where did you find this opportunity?
- How did you learn about this role?
- What brought this opportunity to your attention?
- Referral source
- Source of application

Preferred/default answer

text

Company website

Available answer mappings

- Company website
- Company careers page
- Job board
- Indeed
- LinkedIn
- Social media
- A friend
- Referral
- Advertisement
- Online advertisement
- AI assistant
- AI chat model
- Research
- Google
- Search engine
- Other

Selection logic

```yaml
if:
```

```
  source_is_company_site: "Company
website"
  source_is_indeed: "Indeed"
  source_is_linkedin: "LinkedIn"
  source_is_generic_job_board: "Job
board"
  source_is_social_media: "Social
media"
  source_is_google: "Google"
  source_is_ai_research: "Other"
  source_unknown: "Company website"
```

Never claim "friend referral" unless that was actually the source.

---

8. USER-PROVIDED ANSWER: NO, QUESTION NOT YET IDENTIFIED

Current value:

```yaml
answer: "No"
status: incomplete
autofill: false
```

Do not attach this No to a random question.
The actual question needs to be identified first.

---

9. LANGUAGES

Primary language

French

- French
- Français
- Native French
- French, native
- French is my first language

English

Fluent

- Fluent English

- English fluency
- Professional English
- Fully fluent in English

Bilingual

Answer:

- Yes
- Bilingual
- Fully bilingual
- English and French
- French and English
- Bilingual French/English
- Bilingual English/French

Preferred application/work language

No strong preference.

If forced to choose:

```text
English
```

Fallbacks:

- English preferred
- English
- Anglais

---

10. LOCATION

Canonical answer:

```text
Ottawa, ON
```

Question variants:

- Where are you located?
- Current city
- Current location

- City of residence
- Where do you currently live?
- What city are you based in?
- Current address city
- Municipality

Answer fallbacks:

- Ottawa, ON
- Ottawa, Ontario
- Ottawa
- Ottawa, Ontario, Canada

Postal code

Only provide if mandatory:

```text
K1K 4G8
```

Rule:

```yaml
```

```
location:
  default: "Ottawa, ON"

provide_postal_code_only_if_require
d: true
  postal_code: "K1K 4G8"
```

STAGE 2: EXTENDED APPLICATION QUESTIONS

WHY DO YOU WANT TO WORK HERE / WHY US?

Mode:dynamic_answer

Question variants:

- Why us?
- Why our company?
- Why do you want to work here?

- Why are you interested in joining us?
- Why this organization?
- What interests you about our company?
- Why are you interested in this opportunity?

Rule:

Never reuse a generic fixed answer.

Generate from:

1. actual company
2. actual role
3. job description
4. candidate experience
5. genuine alignment

No invented admiration, products, customers, achievements, or company knowledge.

FRIEND / FAMILY MEMBER WORKS HERE

Questions:

- Do you have a family member who works here?
- Do you know anyone employed by us?
- Do you have friends or relatives working here?
- Are you related to any employee?
- Do you have a personal relationship with an employee?

```yaml
mode: ask_each_time
autofill: false
```

FINANCIAL INTEREST / SHARES

Questions:

- Do you own shares in the company?
- Do you hold a financial interest in this organization?
- Do you own company stock?
- Do you have any financial interest in the employer?

```yaml
mode: ask_each_time
autofill: false
```

PREVIOUS EMPLOYMENT WITH COMPANY

Questions:

- Have you worked for us before?
- Are you a former employee?
- Have you previously been employed here?

- Have you ever worked for this company?
- Are you an ex-employee?

```yaml
mode: ask_each_time
```

CURRENT EMPLOYEE

Questions:

- Are you currently employed by us?
- Are you a current employee?
- Do you currently work here?
- Are you applying internally?

```yaml
mode: ask_each_time
```

BOARD / EXECUTIVE RELATIONSHIP

Questions:

- Have you or someone you know served on our board?
- Are you related to an executive?
- Do you have a relationship with a director or officer?
- Have you served on the board of directors?

```yaml
mode: ask_each_time
```

PREVIOUS APPLICATIONS

Questions:

- Have you applied here before?
- Have you previously submitted an application?
- Have you interviewed with us before?
- Have you previously been considered for employment?

```yaml
mode: ask_each_time
```

PREVIOUS REJECTION

Questions:

- Have you previously been denied employment here?

- Have you had an application rejected by us?
- Have you previously been unsuccessful in an application?

```yaml
mode: ask_each_time
```

VOLUNTARY SELF-IDENTIFICATION

The following should never be inferred.

LGBTQ+ identity

Sexual orientation

Ethnicity

Race

Minority status

Indigenous identity

Disability status

Veteran status

Gender identity

Marital status

Question fallbacks should be recognized, but no personal identity should be fabricated.

```yaml
mode: skip_if_optional_else_ask
allow_autofill: false
```

If HunterXJob later receives an explicit user preference such as Prefer not to answer, that can become a confirmed policy.

ORGANIZATION MEMBERSHIP

Questions:

- Are you a member of any professional organization?
- Are you affiliated with an organization?
- Do you belong to an association?
- Do you hold memberships relevant to this role?

```yaml
mode: ask_each_time
```

CRIMINAL HISTORY

Questions:

- Have you ever been convicted of a crime?
- Do you have a criminal record?
- Have you ever been convicted of an offence?
- Are you a convicted felon?
- Do you have any criminal convictions?

```yaml
mode: ask_each_time
sensitivity: legal
autofill: false
```

Important: background-check consent = Yes does not imply anything about criminal-history answers.

DRIVER'S LICENCE

Questions:

- Do you hold a valid driver's licence?
- Do you have a driver's license?
- Do you possess a valid driving licence?
- Do you have a valid Ontario driver's licence?

```yaml
mode: ask_each_time
```

COMMUTE

For Ottawa/Gatineau jobs:

Answer: Yes

Fallbacks:

- Yes
- I can commute
- Able to commute
- I can reliably commute
- Yes, within Ottawa/Gatineau

For positions outside the Ottawa/Gatineau commuting area:

```yaml
answer: remote_only
```

VEHICLE OWNERSHIP

Questions:

- Do you own a vehicle?
- Do you have access to a car?
- Do you have reliable transportation?

```yaml
```

```
mode: ask_each_time
```

Do not confuse having reliable transportation with owning a car.

CANADIAN WORK AUTHORIZATION

Questions:

- Are you allowed to work in Canada?
- Are you legally eligible to work in Canada?
- Are you authorized to work in Canada?
- Can you legally work for any Canadian employer?

Answer: Yes

TERMS AND CONDITIONS / LEGAL AGREEMENTS

Questions:

- Do you accept our terms?
- Do you agree to the terms and conditions?
- Do you accept the applicant declaration?
- Do you agree to our privacy policy?
- Do you certify that this information is accurate?

```yaml
mode: ask_each_time
autofill: false
```

Do not blanket-accept unknown legal agreements.

CRIMINAL/BACKGROUND SCREENING CONSENT

Answer: Yes

See confirmed Policy #5.

GOVERNMENT SECURITY CLEARANCE

Questions:

- Do you currently hold a government security clearance?
- What clearance level do you hold?
- Do you hold Reliability Status?
- Do you have Secret clearance?
- Do you have Top Secret clearance?

```yaml
mode: ask_each_time
```

GOVERNMENT EMPLOYEE

Questions:

- Are you currently a government employee?
- Are you employed by the federal government?
- Do you currently work for a government department?

```yaml
mode: ask_each_time
```

ACCOMMODATION

Questions:

- Do you require accommodation?
- Do you require workplace accommodation?
- Will you need accommodation during the hiring process?
- Do you require accessibility accommodations?

```yaml
mode: skip_if_optional_else_ask
sensitivity: sensitive
```

REMOTE WORKSPACE

Questions:

- Do you have a quiet workspace?
- Do you have a safe private place to work?
- Do you have a dedicated home office?
- Do you have a private remote-work environment?

```yaml
mode: ask_each_time
```

HIGH-SPEED INTERNET

Questions:

- Do you have reliable high-speed internet?
- Do you have broadband internet?
- Is your internet suitable for remote work?

```yaml
mode: ask_each_time
```

COMPUTER

Questions:

- Do you have a computer?
- Do you own a personal computer?
- Do you have appropriate computer equipment for remote work?

```yaml
mode: ask_each_time
```

CELLPHONE

Questions:

- Do you have a cellphone?
- Do you own a smartphone?
- Do you have a mobile phone?

```yaml
mode: ask_each_time
```

ALLERGIES / MEDICAL INFORMATION

Questions:

- Do you have any allergies?
- Do you have any medical restrictions?

- Do you have any health conditions we should know about?

```yaml
mode: skip_if_optional_else_ask
sensitivity: medical
autofill: false
```

CANADIAN CITIZENSHIP

Questions:

- Are you a Canadian citizen?
- Do you hold Canadian citizenship?
- What is your citizenship?

Answer: Yes / Canadian

Fallbacks:

- Yes
- Canadian
- Canada
- Canadian citizen
- Citizen of Canada

UNITED STATES CITIZENSHIP

Do not infer citizenship from US work authorization.

```yaml
mode: ask_each_time
```

SIN / SOCIAL INSURANCE

NUMBER

Questions:

- Do you have a valid SIN?
- Do you have a Social Insurance Number?
- Do you possess a valid Canadian SIN?

```yaml
mode: ask_each_time
sensitivity: legal
```

Never store or submit the actual SIN number through a generic application-answer policy.

LEADERSHIP EXPERIENCE

Questions:

- Have you held a leadership position?
- Do you have leadership experience?

- Have you managed a business or team?
- Have you held a position of responsibility?

Answer: Yes

Supporting context:

```text
Founder/operator and Creative Director of Melato.
```

Answer fallbacks:

- Yes
- Yes, I have leadership experience
- Founder of Melato
- Business owner
- Founder and Creative Director
- Self-employed business owner

EDUCATION / DEGREE / DIPLOMA

Questions:

- Do you have post-secondary education?
- Do you hold a degree or diploma?
- What is your highest level of education?
- Do you have a college diploma?
- Do you have relevant education?

Answer: Yes

Confirmed safe representation:

```text
Post-secondary college diploma from
La Cité, graduated in 2016.
```

Program:

```text
Computer Engineering Technology /
Information Systems
```

Do not automatically state the program duration until the final profile version resolves the 2-year versus 3-year wording.

CERTIFICATIONS

Questions:

- Do you have any certifications?
- What professional certifications do you hold?
- Do you have relevant certificates?

```yaml
mode: ask_each_time
```

STUDENT STATUS

Questions:

- Are you currently a student?
- Are you enrolled in school?
- Are you currently studying?

```yaml
mode: ask_each_time
```

FIRST 90 DAYS / VACATION RESTRICTIONS

Questions:

- Are you able to avoid vacation during your first 90 days?
- Can you commit to no planned leave during training?
- Are you available throughout the initial

training period?

```yaml
mode: ask_each_time
```

PLANNED VACATION

Questions:

- Do you have any upcoming vacation?
- Do you have planned time off?
- Do you have pre-booked leave?

```yaml
mode: ask_each_time
```

SALES EXPERIENCE

Questions:

- Do you have sales experience?
- Have you previously worked in sales?
- How many years of sales experience do you have?

```yaml
mode: ask_each_time
```

Do not convert general customer-facing or business experience into a specific number of sales years unless supported by the résumé/profile.

LINKEDIN

Questions:

- LinkedIn
- LinkedIn URL
- LinkedIn profile
- Please provide your LinkedIn profile

```yaml
answer_source:
candidate_profile.linkedin_url
mode: profile_lookup
```

Never invent the URL.

WEBSITE

Questions:

- Personal website
- Website
- Company website
- Other website
- Professional website

Available confirmed website:

```text
https://melato.ca
```

Use only when a personal/business website is appropriate.

PORTFOLIO

Questions:

- Portfolio
- Portfolio URL
- Personal portfolio
- Work samples
- Professional portfolio

yaml

```
answer_source:
candidate_profile.portfolio_url
mode: profile_lookup
```

Do not substitute Melato.ca automatically if the field specifically requires a professional portfolio and a dedicated portfolio URL exists.

STAGE 3: ADDITIONAL USEFUL POLICIES

AGE REQUIREMENT

Questions:

- Are you 18 years of age or older?
- Are you at least 18?
- Have you reached the age of majority?

- Are you legally old enough to work?

Answer: Yes

Fallbacks:

- Yes
- 18+
- Over 18
- I am over 18 years old

EMPLOYER SPONSORSHIP

Questions:

- Will you require sponsorship?
- Do you require visa sponsorship?
- Will you need sponsorship now or in the future?
- Will the company need to sponsor you?

Canada answer: No

Fallbacks:

- No
- No sponsorship required
- I do not require sponsorship
- No employer sponsorship needed

CURRENT COMPANY

Questions:

- Current employer
- Current company
- Who do you currently work for?
- Employer name

Answer:

```text
Melato
```

SELF-EMPLOYMENT

Questions:

- Are you self-employed?
- Do you own a business?
- Do you currently operate your own business?
- Are you an entrepreneur?

Answer: Yes

Fallbacks:

- Yes
- Self-employed
- Business owner
- Founder of Melato
- I operate my own business

FRENCH PROFICIENCY

Questions:

- Are you fluent in French?
- What is your French proficiency?
- Can you work professionally in French?
- Êtes-vous bilingue?
- Parlez-vous français?

Answer: Native / Fluent

Fallbacks:

- Native
- Native French speaker
- Fluent
- Fully fluent
- Professional proficiency
- French is my first language

ENGLISH PROFICIENCY

Questions:

- Are you fluent in English?
- What is your English proficiency?
- Can you work professionally in English?

Answer: Fluent

Fallbacks:

- Fluent
- Fully fluent
- Professional proficiency
- Full professional proficiency

BILINGUAL REQUIREMENT

Questions:

- Are you bilingual in English and French?
- Can you communicate in both official languages?
- Are you fully bilingual?
- Bilingual French/English?

Answer: Yes

FINANCIAL-CRIME INVESTIGATION EXPERIENCE

Questions:

- Do you have financial-crime investigation experience?
- How many years of financial-crime investigation experience do you have?
- Do you have experience investigating

financial crime?

- Do you have fraud/financial-crime investigative experience?

Answer:

```text
2 years
```

Fallbacks:

- 2
- Two years
- 2 years
- Approximately 2 years

SEARCH ROUTING POLICY

This belongs outside normal application

answers.

```yaml
search_policy:

  local_priority:
    geography:
      - Ottawa
      - Gatineau
      - National Capital Region
    allowed_work_modes:
      - onsite
      - hybrid
      - remote
    priority: highest

  canada_remote:
    geography: Canada
    allowed_work_modes:
      - remote
    priority: high

  united_states:
    enabled: false
```

```
  international:
    enabled: false

  relocation:
    enabled: false
```

SAFETY / CONFIDENCE RULE

HunterXJob should use:

```yaml
confirmed_user_answer:
  confidence: 1.0
  allow_autofill: true

derived_but_not_explicit:
  confidence: 0.5
  allow_autofill: false

unknown:
  confidence: 0.0
```

```
    confidence: 0.0
    mode: ask_each_time

  protected_or_sensitive_unknown:
    mode: skip_if_optional_else_ask
    allow_autofill: false
```

Questions should be recognized aggressively.
Answers should be supplied conservatively.
Recognizing a question is not permission to invent its answer.

HUNTERXJOB CANDIDATE ANSWER POLICY PACK v2.0

PURPOSE

This policy system gives HunterXJob a durable understanding of:

- who the candidate is
- what the candidate is looking for

- what answers are permanently known
- what answers depend on the specific job
- what answers can be derived from verified experience
- what questions require fresh judgment
- what sensitive questions should be skipped
- how to handle differently worded versions of the same question
- how to map an answer into text fields, radio buttons, dropdowns, checkboxes, numbers, dates and multi-selects
- how to avoid inventing information
- how to avoid giving logically contradictory answers

The guiding principle is:

> Recognize aggressively. Answer conservatively. Never fabricate.

---

1. ANSWER POLICY ARCHITECTURE

Every known application question should ideally contain:

```yaml
canonical_key:
category:
sensitivity:

question_patterns:
question_aliases:

answer_mode:
answer_value:
answer_label:

answer_fallbacks:
format_fallbacks:
option_fallbacks:
strategic_alternatives:

scope:
```

```
scope_value:

source:
confidence:
allow_autofill:

dependencies:
conditions:
negative_question_behavior:

unknown_behavior:
notes:
```

---

2. ANSWER MODES

HunterXJob should support more than simple answer or skip.

yaml

answer_modes:

  answer:
    meaning: Use a verified fixed answer.

  derive:
    meaning: Calculate or compose the answer exclusively from verified facts.

  contextual:
    meaning: Answer depends on the job, company, location or application.

  dynamic:
    meaning: Generate a truthful narrative from verified facts and the job description.

  decline:
    meaning: Explicitly answer No / Decline when that is the user's policy.

  skip:
    meaning: Leave optional field unanswered

unanswered.

skip_if_optional_else_review:
meaning: Skip optional field, request review only when mandatory.

ask_each_time:
meaning: No permanent answer exists.

profile_lookup:
meaning: Retrieve from verified candidate profile.

application_audit:
meaning: Determine answer from what actually occurred during this application.

conditional:
meaning: Answer only after another question establishes that this field applies.

3. FALLBACK TYPES

Do **not** put every alternative into one fallback array.
There are several fundamentally different fallback classes.

Question aliases

Different ways employers ask the same question.
Example:

```yaml
question_aliases:
  - What salary are you looking for?
  - What are your salary expectations?
  - Desired compensation?
```

Answer fallbacks

Semantically identical answers.

```yaml
```

```yaml
answer_value: "Yes"

answer_fallbacks:
  - Yes
  - I agree
  - I consent
```

Format fallbacks

Same information represented differently.

```yaml
answer_value: "60000 CAD"

format_fallbacks:
  - "60000"
  - "60,000"
  - "60 000"
  - "$60,000"
  - "60K"
```

Option fallbacks

Equivalent dropdown choices.

```yaml
```

```yaml
answer_value: "No"

option_fallbacks:
  - No
  - No, I do not
  - Not applicable
```

Only use Not applicable when it genuinely means the same thing.

Strategic alternatives

Different legitimate choices approved by the candidate.

```yaml
strategic_alternatives:
  - 70000
  - 85000
  - 95000
  - 107000
```

These are **not equivalent answers** and should

only be selected by salary strategy.

Scope override

A different answer that applies to one company, country or application.

---

4. POLICY PRECEDENCE

When several answers could apply:

```text
APPLICATION
   ↓
COMPANY
   ↓
PLATFORM
   ↓
COUNTRY
   ↓
JOB MARKET / LOCATION
   ↓
```

```
GLOBAL USER POLICY
   ↓
VERIFIED PROFILE FACT
   ↓
VERIFIED DERIVATION
   ↓
REVIEW
```

More specific policy always wins.

---

5. CORE CONFIDENCE MODEL

```yaml
confidence_rules:

  explicitly_user_provided:
    confidence: 1.00

  verified_profile_fact:
    confidence: 1.00
```

```
deterministic_derivation:
  confidence: 0.95

contextual_rule:
  confidence: 0.90

inferred:
  confidence: 0.50
  autofill: false

unknown:
  confidence: 0.00
  autofill: false
```

For sensitive/legal questions, HunterXJob should require either:

```text
explicit answer
OR
verified structured fact
```

Never semantic guessing.

PART I

IDENTITY AND CONTACT

6. FULL NAME

Possible questions:

- Full name
- Legal name
- What is your full name?
- First and last name
- Candidate name
- Applicant name
- Name
- Legal first name
- Legal surname
- Family name
- Given name
- Last name
- Preferred name

Policy

Use verified profile fields.

```yaml
mode: profile_lookup
confidence: 1.0
```

Never abbreviate or invent a middle name.

---

7. PREFERRED NAME

Possible questions:

- Preferred name
- What should we call you?
- Name you go by
- Preferred first name
- Chosen name

Use profile value if explicitly stored

Use profile value if explicitly stored.
Otherwise use first name.
Never change legal-name fields into preferred-name fields.

---

8. EMAIL

Possible questions:

- Email
- Email address
- Primary email
- Contact email
- Best email
- Personal email

```yaml
mode: profile_lookup
```

Never use an automatically generated relay

Never use an automatically generated relay address unless specifically authorized.

---

9. PHONE NUMBER

Questions:

- Phone
- Phone number
- Mobile number
- Cell phone
- Primary telephone
- Contact number
- Best number to reach you

Use verified profile number.

Formatting can change:

```text
+1XXXXXXXXXX
```

```
XXX-XXX-XXXX
(XXX) XXX-XXXX
XXX XXX XXXX
```

The underlying digits must never change.

---

10. LOCATION

Canonical answer:

```text
Ottawa, ON
```

Question aliases:

- Where are you located?
- Current location
- City
- Current city
- City of residence
- Where do you live?

- Where are you based?
- Residence
- Municipality
- Current geographic location
- Home location

Answer variants:

```text
Ottawa, ON
Ottawa, Ontario
Ottawa
Ottawa, Ontario, Canada
```

---

11. POSTAL CODE

Use only when required.

```text
K1K 4G8
```

Format alternatives:

```text
K1K4G8
K1K 4G8
```

Policy:

```yaml
provide_if:
  field_required: true
otherwise:
  skip: true
```

---

12. COUNTRY OF RESIDENCE

Canonical answer:

text

Canada

Fallbacks:

- Canada
- CA
- CAN
- Canadian resident

Do not use Canadian citizen when the employer specifically asks for country of residence.

---

13. PROVINCE

Canonical:

text

Ontario

Fallbacks:

```text
ON
Ontario
```

---

14. TIME ZONE

Canonical:

```text
Eastern Time
```

Possible options:

- Eastern Time
- ET
- EST

- EST
- EDT
- America/Toronto

Prefer Eastern Time unless the form explicitly uses IANA identifiers.

PART II

WORK AUTHORIZATION

15. CANADA WORK AUTHORIZATION

Questions:

- Are you legally authorized to work in Canada?
- Can you legally work in Canada?
- Do you have the right to work in Canada?
- Are you eligible to work in Canada?

- Are you authorized to work for any Canadian employer?
- Do you currently have Canadian work authorization?
- Can you work in Canada without restriction?

Answer:

```text
Yes
```

Fallbacks:

- Yes
- Authorized
- Legally authorized
- Yes, legally authorized
- I am authorized to work in Canada
- Yes, without sponsorship

---

16. CANADIAN CITIZENSHIP

Questions:

- Are you a Canadian citizen?
- Do you hold Canadian citizenship?
- Citizenship
- Country of citizenship
- What is your nationality?

Answer:

```text
Canadian
```

Option mappings:

```text
Yes
Canada
Canadian
Canadian Citizen
```

Citizen of Canada

---

17. CANADA SPONSORSHIP

Questions:

- Do you require sponsorship?
- Will you require sponsorship?
- Do you need employer sponsorship?
- Will you require immigration sponsorship now or later?
- Do you require visa sponsorship in Canada?
- Will you need a work permit sponsored by us?

Answer:

```text
No
```

Fallbacks:

- No
- No sponsorship required
- I do not require sponsorship
- No employer sponsorship needed
- I will not require sponsorship

---

18. UNITED STATES WORK AUTHORIZATION

Confirmed policy:

```yaml
authorized: true
search_enabled: false
```

Application answer if legitimately asked:

```text
Yes
```

Question aliases:

- Are you legally authorized to work in the US?
- Are you authorized to work in the United States?
- Can you legally work in the USA?
- Do you have US work authorization?
- Are you eligible to work in the United States?

Answer fallbacks:

- Yes
- Authorized
- Legally authorized
- Authorized to work in the United States

Important:

```text
```

US authorization ≠ US citizenship.
US authorization ≠ US job search enabled.

---

19. US CITIZENSHIP

Unknown.

```yaml
mode: ask_each_time
autofill: false
```

Never derive citizenship from work authorization.

---

20. INTERNATIONAL WORK

AUTHORIZATION

Never reuse Canada or US authorization internationally.
Questions mentioning:

- UK
- EU
- Australia
- UAE
- France
- Germany
- another country

must use country-specific authorization.
If no verified authorization exists:

```yaml
mode: review
```

PART III

JOB SEARCH GEOGRAPHY

21. MARKET PRIORITY

yaml

```yaml
market_1:
  location:
    - Ottawa
    - Gatineau
    - National Capital Region
  onsite: true
  hybrid: true
  remote: true
  priority: highest

market_2:
  location: Canada
  remote: true
  onsite: false
  hybrid: false
  priority: high
```

```
  market_3:
    location: United States
    enabled: false

  market_4:
    location: International
    enabled: false
```

Search policy and application-answer policy must remain separate.

---

22. RELOCATION

Questions:

- Are you willing to relocate?
- Would you relocate?
- Open to relocation?
- Can you move for this role?
- Willing to move?
- Relocation willingness

- Relocation willingness
- Would you be willing to relocate to X?
- Are you able to relocate?

Answer:

```text
No
```

Fallbacks:

- No
- Not currently
- Not open to relocating
- I am not looking to relocate

Do not select:

```text
Maybe
Open to discussion
Yes
```

unless specifically approved later.

---

23. OTTAWA / GATINEAU COMMUTE

Questions:

- Can you commute to Ottawa?
- Can you work from our Ottawa office?
- Are you within commuting distance?
- Can you reliably commute?
- Are you available onsite?
- Can you attend the office?
- Are you comfortable with hybrid work?
- Can you work three days per week onsite?

For Ottawa/Gatineau:

```text
Yes
```

Fallbacks:

- Yes
- Able to commute
- I can commute
- Within commuting distance
- Yes, I can work onsite
- Yes, I can work hybrid

---

24. COMMUTE OUTSIDE OTTAWA/ GATINEAU

If the role is elsewhere in Canada and not remote:

```text
No
```

unless specifically approved.

---

25. REMOTE WORK

Questions:

- Are you comfortable working remotely?
- Can you work remotely?
- Are you open to remote work?
- Do you have experience working remotely?

Work-arrangement preference:

```text
Yes
```

For jobs outside Ottawa/Gatineau, remote is required.

26. HYBRID WORK

Ottawa/Gatineau:

```text
Yes
```

Elsewhere:

```text
No
```

unless the location is realistically commutable.

---

27. ONSITE WORK

Ottawa/Gatineau:

Ottawa/Gatineau:

```text
Yes
```

Elsewhere:

```text
No
```

PART IV

AVAILABILITY

28. START DATE

Canonical:

```text
```

```
Immediately
```

Question aliases:

- When can you start?
- Earliest start date
- What is your availability?
- When are you available?
- When would you be able to join?
- What date can you begin?
- Available start date
- Earliest availability
- How soon can you start?
- Notice period
- When could you commence employment?

Primary:

```text
Immediately
```

Fallbacks:

- Available immediately
- Immediately available

- ASAP
- As soon as possible
- Available now
- I can begin immediately
- Ready to start immediately

Secondary:

```text
Within 2 weeks
```

Fallbacks:

- 2 weeks
- Two weeks
- In two weeks
- Within two weeks
- 14 days

---

29. NOTICE PERIOD

Questions:

- What is your notice period?
- How much notice do you need?
- Required notice before starting?

Preferred answer:

```text
No notice period / Available immediately
```

Fallback:

```text
Up to two weeks
```

---

30. FULL-TIME AVAILABILITY

If asking generally whether available for full-time employment:

```yaml
mode: ask_each_time
```

Unless this is explicitly added as a permanent preference.

---

31. PART-TIME AVAILABILITY

```yaml
mode: ask_each_time
```

---

32. CONTRACT WORK

Questions:

- Are you open to contract work?
- Temporary employment?
- Fixed-term contract?
- Contract-to-hire?

```yaml
mode: ask_each_time
```

---

33. SHIFT AVAILABILITY

Keep separate:

```yaml
day_shift: ask_each_time
evening_shift: ask_each_time
night_shift: ask_each_time
```

```
weekend_shift: ask_each_time
rotating_shift: ask_each_time
```

Do not infer availability from past night-shift experience.
Having done something before does not automatically mean wanting it now.

---

34. OVERTIME

Questions:

- Are you available for overtime?
- Can you occasionally work additional hours?

```yaml
mode: ask_each_time
```

---

35. ON-CALL

```yaml
mode: ask_each_time
```

---

36. WEEKENDS / HOLIDAYS

```yaml
mode: ask_each_time
```

PART V

COMPENSATION

37. MINIMUM SALARY

Candidate minimum:

```yaml
currency: CAD
annual_minimum: 60000
```

Canonical output:

```text
60000 CAD
```

Formatting:

```text
60000
60,000
60 000
```

60k
60k
$60,000
$60K
$60,000 CAD
CAD 60,000
60000 CAD

---

38. SALARY QUESTION ALIASES

Recognize:

- Salary expectation
- Desired salary
- Expected salary
- Compensation expectation
- Desired compensation
- Expected compensation
- Base salary expectation
- Salary requirements

- Pay expectation
- What salary are you targeting?
- What salary are you looking for?
- What compensation would you accept?
- What is your expected annual salary?
- Minimum salary
- Minimum compensation
- Desired annual salary
- Expected base
- Salary range sought
- Compensation range sought
- What are your salary expectations?
- What remuneration are you seeking?
- Prétentions salariales
- Salaire souhaité
- Rémunération souhaitée

---

39. SALARY STRATEGY

Approved salary anchors:

Approved salary anchors:

```yaml
minimum: 60000

approved_anchors:
  - 60000
  - 70000
  - 85000
  - 95000
  - 107000
```

These are **not synonyms**.

Suggested strategy:

```yaml
if employer_range_unknown:
  use: 60000

if
employer_range_minimum_above_60
000:
  do_not_undercut_posted_range:
true
```

```
if dropdown_options:

choose_lowest_approved_option_at_
or_above_60000: true

if posted_salary_range_exists:
 stay_inside_range: true

if
question_asks_minimum_acceptable:
 use: 60000

if question_asks_current_salary:
 ask_each_time: true

if question_asks_total_compensation:
 ask_each_time: true

if question_asks_hourly_rate:
 ask_each_time: true
```

Do not automatically convert $60,000 annual into hourly pay because required weekly hours may differ.

---

40. SALARY NEGOTIABILITY

Questions:

- Is salary negotiable?
- Are you flexible on compensation?
- Are your salary expectations flexible?

Recommended policy:

```text
Yes
```

Possible answer:

```text
Yes, depending on the overall compensation package and responsibilities.
```

This should be approved by the candidate before permanent autofill.

PART VI

EMPLOYMENT STATUS

41. CURRENTLY EMPLOYED?

Candidate operates Melato.
Questions:

- Are you currently employed?
- Are you working?
- What is your employment status?
- Current employment status

Answer:

```text
Yes, self-employed
```

Dropdown fallback:

```text
Self-employed
```

If unavailable:

```text
Employed
```

---

42. SELF-EMPLOYED?

Answer:

```text
Yes
```

Aliases:

- Are you self-employed?
- Do you own a business?
- Are you an entrepreneur?
- Do you currently operate a company?
- Are you currently running your own business?

---

43. CURRENT COMPANY

Answer:

```text
Melato
```

Fallbacks:

- MELATO
- Melato Brand

- Self-employed / Melato

---

44. CURRENT ROLE

Possible valid titles depending on field:

```text
Founder
Founder & Owner
Founder / Operator
Designer & Creative Director
Founder & Creative Director
```

Prefer title actually stored in the verified profile.

---

45. WHY ARE YOU LEAVING YOUR CURRENT ROLE?

Because Melato is self-employment, this should be contextual.

Never fabricate dissatisfaction.

Possible dynamic framing:

```text
I am looking to complement my entrepreneurial work with a strong professional opportunity where I can apply my banking, fraud, collections and operations experience.
```

Only use after candidate approval.

PART VII

EXPERIENCE

46. TOTAL BANKING / PAYMENTS EXPERIENCE

Verified general profile:

Verified general profile.

```text
7 years
```

Question aliases:

- How many years of banking experience?
- Years working in financial services?
- Banking experience?
- Financial-services experience?
- Payments experience?

Possible answer:

```text
7 years
```

Use only when the question genuinely covers the overall banking/payments background.

---

47. FRAUD EXPERIENCE

Questions:

- Do you have fraud experience?
- Fraud investigation experience?
- Fraud prevention experience?
- Transaction fraud experience?
- Fraud analyst experience?

Answer:

```text
Yes
```

For exact number of years, derive only from verified employment chronology rather than guessing.

---

48. DISPUTES / CHARGEBACK EXPERIENCE

Questions:

- Dispute experience?
- Chargeback experience?
- Payment disputes?
- Claims experience?
- Card disputes?

Answer:

```text
Yes
```

---

49. COLLECTIONS EXPERIENCE

Questions:

- Collections experience?
- Debt collection experience?

- Credit and collections?
- Delinquent account management?
- Recovery experience?
- Collection portfolio experience?

Answer:

```text
Yes
```

---

50. ACCOUNT PORTFOLIO EXPERIENCE

Confirmed:

```text
3+ years
```

Questions:

- Do you have portfolio management experience?
- Have you managed large account portfolios?
- How many years managing account portfolios?
- Experience handling high-balance accounts?

Answer variants:

```text
Yes
3+ years
More than 3 years
Over three years
```

---

51. LARGE BALANCE ACCOUNTS

Answer:

```text
Yes
```

Can reference verified large-balance portfolio experience where relevant.

---

52. LEADERSHIP EXPERIENCE

Answer:

```text
Yes
```

Evidence sources include verified supervisory and business-owner experience.

Question aliases:

- Leadership experience?
- Have you supervised employees?
- Have you coached others?
- Have you led a team?
- Management experience?
- Team lead experience?
- Supervisory experience?
- Have you held a leadership position?

Answer fallbacks:

- Yes
- Yes, I have leadership experience
- Yes, I have supervisory experience
- Team leadership and coaching experience

---

53. PEOPLE MANAGEMENT

If question specifically asks number of direct

reports:

```yaml
mode:
derive_from_verified_profile_or_revie
w
```

Do not translate "coached people" into "managed X direct reports" automatically.

---

54. ESCALATION EXPERIENCE

Answer:

```text
Yes
```

Question variants:

- Customer escalations
- Complex escalations

- Complex escalations
- High-risk escalations
- Escalated cases
- Complaint escalations

---

55. REPORT WRITING

Answer:

```text
Yes
```

---

56. COACHING / TRAINING

Answer:

```text
Yes
```

Recognize:

- Coaching
- Mentoring
- Training colleagues
- Employee development
- Shadowing
- Performance feedback

---

57. HIGH-VALUE CLAIMS

HunterXJob can reference verified experience handling claims above $10,000 when a question specifically asks about high-value claims or high-risk transactions.

Do not turn $10,000+ claim experience into a general salary or portfolio number.

PART VIII

EXPERIENCE-YEAR DERIVATION ENGINE

For questions such as:

> How many years of X experience do you have?

HunterXJob should not simply ask an LLM.
It should calculate from verified dated experience.
Example:

```yaml
experience_calculation:

  identify_skill: collections
```

```
 identify_skill: collections

 find_verified_roles:
  where
skill_or_achievement_supports:
collections

 intervals:
  - start_date
  - end_date

 merge_overlapping_intervals: true

 calculate_total_months: true

 convert_to_years: true

never_double_count_overlapping_job
s: true
```

Then format according to available options:

```text
3
```

3 years
3+ years
More than 3 years
2-5 years
3 to 5 years

Select the closest truthful option.
Never round upward into a category the candidate does not qualify for.
Example:

```text
Verified = 2 years 9 months

Allowed:
2 years
2+ years
2-3 years
1-3 years

Not allowed:
3+ years
3-5 years
5 years
```

PART IX

SOFTWARE AND TOOLS

58. EXCEL

Known level:

```text
Good
```

Option mapping could include:

```text
Intermediate
Proficient
Good
```

```
Working proficiency
```

Do not automatically select Expert or Advanced unless profile is updated.

---

59. SALESFORCE

Known level:

```text
Medium
```

Dropdown mapping:

```text
Intermediate
Working knowledge
Moderate proficiency
```

60. NETSUITE

Known level:

```text
Very good
```

Possible mappings:

```text
Advanced
Highly proficient
Very good
```

---

61. GOOGLE AD MANAGER

Known level:

```text
```

```
Very good
```

Possible mappings:

```text
Advanced
Highly proficient
Very good
```

---

62. UNKNOWN TECHNOLOGY QUESTIONS

Example:

- Do you know SAP?
- Snowflake?
- Tableau?
- Power BI?
- SQL?
- Python?

- AWS?
- Azure?

HunterXJob must look up the verified skills profile.
If absent:

```yaml
mode: review
```

Never infer a technical skill from the job description.

PART X

LANGUAGE

63. FRENCH

French is first language.

Canonical:

```text
Native / Fluent
```

Fallbacks:

- Native
- Native French
- Native speaker
- Fluent
- Fully fluent
- French mother tongue
- First language
- Full professional proficiency

---

64. ENGLISH

Canonical:

Canonical:

```text
Fluent
```

Fallbacks:

- Fluent
- Fully fluent
- Professional proficiency
- Full professional proficiency
- Advanced

---

65. BILINGUAL

Questions:

- Are you bilingual?
- English and French?
- French and English?
- Can you work in both official languages?
- Bilingual English/French?

- Bilingual French/English?
- Can you serve customers in English and French?
- Êtes-vous bilingue?

Answer:

```text
Yes
```

Fallbacks:

- Yes
- Fully bilingual
- English and French
- French and English
- Bilingual EN/FR
- Bilingual FR/EN

---

66. LANGUAGE PREFERENCE

No strong preference.

If forced:

```text
English
```

Fallbacks:

```text
English
Anglais
EN
```

PART XI

EDUCATION

EDUCATION

67. POST-SECONDARY EDUCATION

Answer:

```text
Yes
```

Verified profile representation:

```text
2-year college education in Technique en Systèmes Informatiques.
```

Use the exact institution, dates and credential only when verified in the candidate profile.

---

68. HIGHEST EDUCATION LEVEL

Prefer structured profile value.

Possible option mappings should be truthful:

```text
College
College diploma
Post-secondary diploma
2-year college diploma
Technical diploma
```

Do not select Bachelor’s Degree.

---

69. HIGH SCHOOL

Verified education profile can include Lycée Moulay Ismaël where relevant.

Normally do not send secondary-school details when post-secondary information satisfies the question.

---

70. GPA

Unknown.

```yaml
skip_if_optional_else_review: true
```

Never calculate or fabricate GPA.

---

71. CERTIFICATIONS

If verified certifications exist in the profile, use them.
Otherwise:

```yaml
```

```
mode: review
```

Never convert employer training into an external certification.

---

72. CURRENT STUDENT?

Unknown unless explicitly established.

```yaml
mode: ask_each_time
```

PART XII

BACKGROUND AND SCREENING

73. BACKGROUND CHECK CONSENT

Answer:

```text
Yes
```

Question aliases:

- Consent to background check?
- Agree to background screening?
- Willing to undergo screening?
- Authorize background check?
- Pre-employment background verification?
- Criminal background screening?
- Employment background check?

Fallbacks:

- Yes
- I agree

- I consent
- Yes, I consent
- Authorized
- I authorize the screening
- I am willing to complete a background check

---

74. CRIMINAL HISTORY

Do **not** derive from background-check consent.

Questions:

- Criminal conviction?
- Criminal record?
- Convicted of an offence?
- Felony?
- Pending criminal charges?
- Convicted crime?

yaml

```
mode: ask_each_time
sensitivity: legal
autofill: false
```

---

75. CREDIT CHECK

Consent to a credit check is different from background consent.

```yaml
mode: ask_each_time
```

---

76. DRUG TEST

```yaml
mode: ask_each_time
```

---

77. EMPLOYMENT VERIFICATION

```yaml
mode: ask_each_time
```

---

78. EDUCATION VERIFICATION

```yaml
mode: ask_each_time
```

---

79. REFERENCE CHECK

```yaml
mode: ask_each_time
```

Do not automatically authorize contacting a current employer.

---

80. GOVERNMENT SECURITY CLEARANCE

Questions:

- Reliability status?
- Secret clearance?
- Top Secret?

- Government clearance?
- Security clearance?
- Enhanced reliability?

Unknown unless candidate explicitly stores it.

```yaml
mode: ask_each_time
```

---

81. ELIGIBLE TO OBTAIN CLEARANCE

Different from already holding clearance.

```yaml
mode: ask_each_time
```

---

82. GOVERNMENT EMPLOYEE

```yaml
mode: ask_each_time
```

---

83. CONFLICT OF INTEREST

Questions:

- Conflict of interest?
- Financial relationship?
- Business relationship?
- Competing employment?
- Outside employment?
- Potential conflict?

Because candidate operates Melato:

```yaml
mode: ask_each_time
```

Never automatically answer No.

PART XIII

COMPANY RELATIONSHIPS

84. PREVIOUSLY WORKED FOR COMPANY

Questions:

- Have you worked here before?
- Former employee?
- Previously employed by us?
- Previous contractor?

- Former consultant?
- Ex-employee?

```yaml
scope: company
mode: contextual
```

HunterXJob should search verified employment history.
If employer appears there:

```text
Yes
```

Otherwise:

```text
No
```

only when employer matching is high confidence.

Ambiguous subsidiaries or renamed companies go to review.

---

85. CURRENT EMPLOYEE

Determine using verified current employment history.
Do not confuse "worked for before" with "currently employed by".

---

86. FRIEND OR RELATIVE WORKS HERE

```yaml
mode: ask_each_time
```

---

87. RELATED TO EMPLOYEE

```yaml
mode: ask_each_time
```

---

88. KNOW SOMEONE AT COMPANY

```yaml
mode: ask_each_time
```

---

89. BOARD / EXECUTIVE RELATIONSHIP

```yaml
mode: ask_each_time
```

---

90. SHARES / EQUITY OWNERSHIP

```yaml
mode: ask_each_time
```

---

91. VENDOR / CLIENT RELATIONSHIP

```yaml
mode: ask_each_time
```

---

92. PREVIOUS APPLICATION

This may be derivable from HunterXJob's own application ledger.
Questions:

- Have you applied before?
- Previously applied?
- Previous application?
- Have you interviewed before?

Policy:

```yaml
mode: application_audit
```

If HunterXJob has verified application history:

```text
Yes
```

Otherwise review rather than assuming No.

PART XIV

REFERENCES

93. DO YOU HAVE PROFESSIONAL REFERENCES?

Do not automatically expose reference

information.

```yaml
mode: ask_each_time
```

---

94. REFERENCE NAME / EMAIL / PHONE

Only use explicitly approved stored references.
Never invent.
Never scrape old correspondence.
Never substitute a manager without authorization.

PART XV

TRANSPORTATION

95. DRIVER'S LICENCE

Unknown.

Questions:

- Valid driver's licence?
- Ontario driver's licence?
- Driver license?
- Driving licence?

```yaml
mode: ask_each_time
```

---

96. VEHICLE

Unknown.

```yaml
mode: ask_each_time
```

---

97. RELIABLE TRANSPORTATION

Do not assume car ownership is required.

For Ottawa/Gatineau:

```yaml
mode: contextual
```

Question specifically asking:

> Can you reliably commute to the office?

Answer:

```text
Yes
```

Question asking:

> Do you own a vehicle?

Review.

These are not equivalent.

---

98. TRAVEL

Questions:

- Willing to travel?
- Travel up to 10%?
- 25%?
- 50%?
- Overnight travel?
- International travel?

```yaml
mode: ask_each_time
```

Each travel percentage should be treated

separately.

PART XVI

REMOTE WORK SETUP

99. COMPUTER

Candidate has computer equipment.

Questions:

- Do you have a computer?
- Personal computer?
- Laptop?
- Computer suitable for remote work?

General answer:

```text
Yes
```

But if employer lists minimum hardware specifications, verify them separately.

---

100. CELLPHONE / SMARTPHONE

General answer:

```text
Yes
```

Hardware requirements still need verification if specific.

---

101. HIGH-SPEED INTERNET

Do not infer speed merely from internet access.

```yaml
mode: ask_each_time
```

---

102. PRIVATE WORKSPACE

```yaml
mode: ask_each_time
```

---

103. QUIET WORKSPACE

```yaml
mode: ask_each_time
```

---

104. HEADSET

```yaml
mode: ask_each_time
```

---

105. WEBCAM

Can derive from verified hardware if stored.

Otherwise review.

---

106. ETHERNET CONNECTION

```yaml
mode: ask_each_time
```

PART XVII

DEMOGRAPHICS AND VOLUNTARY DISCLOSURES

These should never be inferred.

107. GENDER

```yaml
mode: skip_if_optional_else_review
```

---

108. SEXUAL ORIENTATION

```yaml
mode: skip_if_optional_else_review
```

---

109. LGBTQ+ STATUS

```yaml
mode: skip_if_optional_else_review
```

---

110. RACE

```yaml
mode: skip_if_optional_else_review
```

---

111. ETHNICITY

```yaml
mode: skip_if_optional_else_review
```

---

112. VISIBLE MINORITY STATUS

```yaml
mode: skip_if_optional_else_review
```

---

113. INDIGENOUS STATUS

```yaml
mode: skip_if_optional_else_review
```

---

114. DISABILITY STATUS

```yaml
mode: skip_if_optional_else_review
```

---

115. VETERAN STATUS

```yaml
mode: skip_if_optional_else_review
```

---

116. MARITAL STATUS

```yaml
mode: skip_if_optional_else_review
```

---

117. RELIGION

```yaml
mode: skip_if_optional_else_review
```

---

118. AGE / DATE OF BIRTH

If question is simply:

> Are you at least 18?

Answer:

```text
Yes
```

Actual date of birth:

```yaml
mode: profile_lookup_if_verified
```

Do not infer the birthdate from age.

PART XVIII

ACCOMMODATIONS AND HEALTH

119. ACCOMMODATION

Questions:

- Do you require accommodation?
- Interview accommodation?
- Workplace accommodation?
- Accessibility requirements?

```yaml
mode: skip_if_optional_else_review
```

---

120. MEDICAL QUESTIONS

Examples:

- Medical conditions
- Allergies
- Medication
- Health condition
- Physical disability
- Mental-health condition

```yaml
mode: skip_if_optional_else_review
sensitivity: medical
```

---

121. ESSENTIAL JOB FUNCTIONS

Question:

> Can you perform the essential functions of this job with or without accommodation?

Do not automatically equate this with disability

status.

```yaml
mode: ask_each_time
```

PART XIX

APPLICATION SOURCE

122. HOW DID YOU HEAR ABOUT US?

Recognize:

- How did you hear about us?
- Where did you find us?
- Where did you see this position?

- How did you find this vacancy?
- How did you learn about this opportunity?
- Source
- Referral source
- Application source
- Job source

Preferred source must reflect reality.

Source mapping:

```yaml
company_careers_page:
  answer: Company Website

indeed:
  answer: Indeed

linkedin:
  answer: LinkedIn

generic_board:
  answer: Job Board

google:
  answer: Google

social:
```

```
    answer: Social Media

  friend:
    answer: Friend / Referral

  advertisement:
    answer: Advertisement

  ai_discovery:
    preferred_options:
      - Other
      - Online Search
      - Internet
      - Research
```

Do not claim a referral that did not happen.

PART XX

ONLINE PROFILES

123. LINKEDIN

Use only verified LinkedIn URL.

```yaml
mode: profile_lookup
```

If missing:

```yaml
skip_if_optional_else_review: true
```

---

124. WEBSITE

Confirmed available business website:

```text
https://melato.ca
```

Use when asking for:

- business website
- personal/professional website where appropriate
- company website
- relevant creative work

Do not automatically use it for unrelated technical portfolio requests.

---

125. PORTFOLIO

If specific portfolio URL exists:

```yaml
mode: profile_lookup
```

If not:

```yaml
mode: review
```

Melato.ca can be used only where genuinely appropriate.

---

126. GITHUB

Use verified GitHub URL if stored.
Do not invent username from other accounts.

PART XXI

COMPANY-SPECIFIC QUESTIONS

127. WHY US?

Examples:

- Why us?
- Why do you want to join?
- Why this company?
- Why are you interested in our organization?
- What interests you about our company?

Mode:

```yaml
mode: dynamic
```

Generate using:

```text
verified candidate experience
+
actual role
+
actual company facts
+
actual job description
```

actual job description

No fake admiration.

No invented product use.

No fabricated company knowledge.

---

128. WHY THIS ROLE?

Dynamic.

Use strongest truthful overlap between:

```text
candidate experience
job responsibilities
required skills
career direction
```

---

129. TELL US ABOUT YOURSELF

Dynamic.

Base structure:

```text
Current professional identity
+
most relevant experience
+
key strengths
+
why they connect to this opportunity
```

---

130. WHAT MAKES YOU A GOOD FIT?

Dynamic.

Use role-specific matching.

Never claim every requirement.

---

131. GREATEST ACHIEVEMENT

Use verified achievements only.

```yaml
mode: derive
```

Select most relevant verified accomplishment from candidate profile.

---

132. STRENGTHS

Generate from verified skills and experience.

---

133. WEAKNESSES

Requires candidate-approved response.

```yaml
mode: ask_each_time
```

---

134. CAREER GOALS

Candidate-specific narrative.

```yaml
mode: ask_each_time
```

until approved.

---

135. WHY ARE YOU LOOKING FOR WORK?

Dynamic response based on current circumstances.
Avoid unnecessary explanations about former employers unless specifically asked.

PART XXII

EMPLOYMENT HISTORY QUESTIONS

136. REASON FOR LEAVING EMPLOYER

Answers must be company-specific.
Never reuse one employer's departure reason for another.

```yaml
scope: employment_record
```

---

137. MAY WE CONTACT THIS EMPLOYER?

```yaml
mode: ask_each_time
```

Especially for current employer/business relationships.

---

138. EMPLOYMENT DATES

Use exact verified dates.

Never estimate.

---

139. JOB TITLE

Use exact verified title.

Do not inflate title for ATS matching.

---

140. MANAGER NAME

Only provide if verified.

---

141. EMPLOYER PHONE

Only provide if verified and appropriate.

PART XXIII

LEGAL DECLARATIONS

142. TERMS AND CONDITIONS

Never globally agree to arbitrary legal text.

```yaml
mode: ask_each_time
```

---

143. PRIVACY POLICY

If merely acknowledging receipt:

```yaml
mode: contextual
```

If granting additional optional consent:

```yaml
mode: ask_each_time
```

---

144. CERTIFY INFORMATION IS TRUE

HunterXJob may only check this if:

```text
```

```
all application answers passed Truth
Guard
AND
no unresolved review items exist
AND
all required factual answers are
verified
```

Otherwise stop.

---

145. ELECTRONIC SIGNATURE

Never generate arbitrary legal signature without explicit workflow authorization.

---

146. NDA / CONFIDENTIALITY

```yaml
mode: ask_each_time
```

---

147. NON-COMPETE / OUTSIDE BUSINESS

Because candidate operates Melato:

```yaml
mode: ask_each_time
```

PART XXIV

COMMUNICATION CONSENT

148. EMAIL APPLICATION UPDATES

Can normally be treated separately from marketing.

---

149. SMS RECRUITING UPDATES

```yaml
mode: ask_each_time
```

---

150. MARKETING EMAILS

Default recommendation:

```text
```

Decline

unless user explicitly opts in.
Recruitment communication and marketing are not the same consent.

---

151. TALENT COMMUNITY

```yaml
mode: ask_each_time
```

PART XXV

VACATION / TIME OFF

152. PRE-PLANNED VACATION

```yaml
mode: ask_each_time
```

---

153. NO VACATION FIRST 90 DAYS

```yaml
mode: ask_each_time
```

---

154. TRAINING ATTENDANCE

If dates/schedule are given:

```yaml
```

```
mode: contextual
```

Do not answer Yes without checking known availability conflicts.

PART XXVI

ASSESSMENTS

155. WILLING TO COMPLETE ASSESSMENT

Examples:

- Skills test
- Personality assessment
- Technical assessment
- Cognitive assessment
- Language test

```yaml
```

```
mode: ask_each_time
```

---

156. ASSESSMENT COMPLETION

If HunterXJob has evidence that it was completed:

```yaml
mode: application_audit
```

Otherwise do not claim completion.

PART XXVII

AI DISCLOSURE

AI DISCLOSURE

157. DID YOU USE AI?

This should be based on what actually occurred.

```yaml
mode: application_audit
```

If employer asks whether AI was used in:

- résumé creation
- cover-letter preparation
- application answers
- assessment
- interview

HunterXJob must distinguish each.
Never answer No if AI materially assisted that component.

PART XXVIII

EXPERIENCE REQUIREMENT QUESTIONS

HunterXJob should recognize patterns such as:

```text
Do you have X experience?
How many years of X?
Have you worked with X?
Are you proficient in X?
Describe your experience with X.
Rate your proficiency in X.
```

Response engine:

```yaml
step_1:
 search_verified_profile_for_skill:
true

step_2:
```

```
  search_verified_achievements: true

step_3:

calculate_verified_duration_if_neede
d: true

step_4:
  compare_to_requirement: true

step_5:
  answer_truthfully: true
```

Never use the job description itself as proof that the candidate possesses the skill.

PART XXIX

REQUIREMENT BOOLEAN ENGINE

Example employer asks:

> Do you have 5+ years of collections experience?

HunterXJob should not merely detect "collections = yes."

It must evaluate:

```text
candidate verified collections duration
VERSUS
5-year threshold
```

Output:

```text
Yes
```

only when verified duration ≥ required duration.

Otherwise:

```text
No
```

or review depending on certainty.

PART XXX

NEGATION ENGINE

Critical hardening.

These questions mean different things:

```text
Are you authorized to work in Canada?
Are you NOT authorized to work in Canada?
Do you require sponsorship?
Do you NOT require sponsorship?
Are you unable to commute?
Are you able to commute?
```

HunterXJob must detect:

- no

- not
- never
- unable
- without
- except
- neither
- unless

before selecting a stored answer.
Never perform pure keyword mapping on questions containing negation.

PART XXXI

CONDITIONAL QUESTION ENGINE

Examples:

If yes, please explain.

If you answered No above, provide details.

If other, please specify.

If you require sponsorship, indicate visa type.

These fields must depend on the previous answer.

```yaml
mode: conditional
```

If condition is false:

```text
skip
```

Do not fill arbitrary text.

PART XXXII

DROPDOWN OPTION MATCHING

Suppose stored answer:

```text
Yes
```

Form options:

```text
Yes, I am legally authorized
No
Other
```

HunterXJob should map semantic equivalents.

But semantic mapping must preserve meaning.

Safe:

```text
Yes → Yes, I am legally authorized
```

Unsafe:

```text
```

No → Prefer not to say

Those are not equivalent.

PART XXXIII

NUMERIC FIELD HANDLING

Examples:

- Years experience
- Salary
- Notice period
- Travel %
- Direct reports
- Portfolio size

Numeric fields should receive numbers only.

Example:

```yaml
stored: "3+ years"
numeric_field: 3
```

Never send:

```text
"more than three years"
```

into an integer-only field.

PART XXXIV

DATE HANDLING

Support:

```text
```

```
Immediately
ASAP
YYYY-MM-DD
MM/DD/YYYY
DD/MM/YYYY
Month YYYY
```

If form demands a calendar date for "immediately":

```text
derive from application date
```

Do not use a stale hard-coded date.

PART XXXV

MULTISELECT QUESTIONS

Example:

Which work arrangements are you open to?

Ottawa/Gatineau:

```text
On-site
Hybrid
Remote
```

Elsewhere Canada:

```text
Remote
```

Multi-select logic must respect job geography.

PART XXXVI

SENSITIVE INFORMATION THAT MUST NEVER BE STORED AS GENERIC FALLBACK TEXT

Do not place actual values for these inside an ordinary answer vault:

```text
SIN
passport number
driver's licence number
bank account
credit-card number
government ID number
password
security answers
criminal-record documents
medical records
background-check documents
```

Store secure references or request controlled entry when legitimately required.

PART XXXVII

DUPLICATE QUESTION DETECTION

Forms often ask the same thing twice:

```text
Are you legally authorized to work in Canada?
Do you currently have the right to work in Canada?
```

HunterXJob should recognize both as:

```text
work_authorization_ca
```

and maintain answer consistency.

PART XXXVIII

CONTRADICTION DETECTION

Before submission, HunterXJob should detect conflicts such as:

```text
Authorized to work in Canada = Yes
Needs sponsorship in Canada = Yes
Citizenship = Canadian
```

Potential contradiction.

Or:

```text
Willing to relocate = No
Preferred work location = Vancouver onsite
Current location = Ottawa
```

Potential contradiction.

Or:

```text
Current employment = No
```

```
Current employer = Melato
Self-employed = Yes
```

Needs semantic resolution.

Do not submit contradictory answers.

PART XXXIX

CURRENT SELF-EMPLOYMENT SEMANTICS

HunterXJob should understand that these can all be simultaneously true:

```yaml
currently_self_employed: true
owns_business: true
current_company: Melato
seeking_employment: true
available_to_start: immediately
```

This is not inherently contradictory.

PART XL

APPLICATION REVIEW REASON CODES

Instead of generic:

```text
Missing fact
```

HunterXJob should report exactly why it stopped.
Examples:

```yaml
unknown_fact:
```

  description: Candidate fact not available.

sensitive_unconfirmed:
  description: Sensitive answer requires explicit candidate decision.

company_specific_unknown:
  description: Answer depends on relationship with this employer.

legal_consent_required:
  description: Legal acknowledgement cannot be globally reused.

ambiguous_question:
  description: Question matched multiple canonical intents.

negation_ambiguous:
  description: Negative wording makes automatic interpretation unsafe.

experience_duration_uncertain:
  description: Verified experience does

not support exact requested duration.

option_mapping_failed:
  description: Stored answer does not correspond safely to available options.

conditional_dependency_missing:
  description: Parent question or answer is unavailable.

salary_strategy_required:
  description: Compensation question requires a strategic choice.

country_scope_missing:
  description: Work authorization country cannot be determined.

profile_conflict:
  description: Stored facts contradict one another.

employer_identity_ambiguous:
  description: Employer may be a subsidiary/former name/related company.

required_sensitive_field:
  description: Optional skip unavailable because employer made field mandatory.

field mandatory.

PART XLI

REVIEW SUPPRESSION

Once the user answers a recurring question, HunterXJob should ask:

```text
Can this answer safely become a reusable policy?
```

If Yes:

store it.

Then stop asking again.

Example:

yaml

```
question:
  Do you have a valid driver's licence?

user_answer:
  Yes

future_policy:
  key: drivers_license_valid
  answer: Yes
  confidence: 1.0
  autofill: true
```

This is how HunterXJob should gradually become more autonomous.

PART XLII

COUNTRY-SCOPED AUTHORIZATION

Never store:

```yaml
work_authorization: yes
```

Instead:

```yaml
work_authorization:
  CA:
    authorized: true
    sponsorship_required: false

  US:
    authorized: true
    search_enabled: false
```

Future countries get their own records.

PART XLIII

JOB MARKET FILTERS

Current search policy:

yaml

```yaml
job_search:

  canada:

    ottawa_gatineau:
      enabled: true
      onsite: true
      hybrid: true
      remote: true
      priority: 1

    other_canada:
      enabled: true
      onsite: false
      hybrid: false
      remote: true
      priority: 2
```

```
  united_states:
    enabled: false
    priority: 3

  international:
    enabled: false
    priority: 4

  relocation:
    enabled: false
```

PART XLIV

VERIFIED CAREER FACT FAMILIES

HunterXJob should maintain reusable verified facts for:

```text
```

banking
payments
fraud
disputes
claims
collections
credit
account portfolios
high-balance portfolios
customer escalations
leadership
supervision
coaching
report writing
risk analysis
transaction review
authorizations
account restrictions
bilingual customer communication
business ownership
creative direction
e-commerce / apparel business operations

These become evidence for dynamic job questions.

PART XLV

SKILL PROOF MODEL

Every skill should optionally contain:

```yaml
skill:
  name: Excel
  proficiency: good
  evidence:
    - role
    - achievement
    - project
  first_verified_use:
  last_verified_use:
  years_experience:
```

```
  aliases:
```

Example aliases:

yaml

```yaml
collections:
  aliases:
    - debt collection
    - recoveries
    - arrears
    - delinquency
    - delinquent accounts
    - credit collections

fraud:
  aliases:
    - fraud prevention
    - fraud investigation
    - transaction fraud
    - financial crime
    - fraud analysis

disputes:
  aliases:
```

- chargebacks
- claims
- transaction disputes
- payment disputes

PART XLVI

QUESTION CLASSIFICATION LEVELS

HunterXJob should classify questions using:

```text
1. Exact canonical pattern
2. Known alias
3. Regex/pattern family
4. Field metadata
5. Available options
6. Section context
```

```
7. Job location
8. Employer
9. Semantic classifier
10. Review
```

Semantic AI should classify the **intent**, not invent the answer.

PART XLVII

ANSWER SELECTION ORDER

Once intent is known:

```text
1. Application-specific explicit answer
2. Company-specific explicit answer
3. Country-specific explicit answer
4. Global explicit answer
5. Verified profile fact
```

6. Deterministic derived answer
7. Contextual rule
8. Review

PART XLVIII

NARRATIVE ANSWER TRUTH GUARD

Generated responses such as:

- Why us?
- Tell us about yourself
- Describe your experience
- Why should we hire you?
- Explain your leadership style
- Describe a challenging situation

must obey:

must obey:

```yaml
narrative_guard:
  verified_facts_only: true
  invent_numbers: false
  invent_titles: false
  invent_skills: false
  invent_certifications: false
  invent_company_relationships: false
  invent_product_usage: false
  invent_customer_names: false
  invent_awards: false
  invent_team_sizes: false
  invent_revenue: false
```

"invent_results": false

PART XLIX

ANSWER LENGTH ADAPTATION

Same truth, different field sizes.

Example long answer:

```text
I am self-employed and currently operate Melato, an apparel brand.
```

Medium:

```text
Self-employed, Founder of Melato.
```

Short:

```text
Self-employed
```

Dropdown:

```text
Self-employed
```

The semantic answer remains identical.

PART L

REQUIRED VS OPTIONAL

Unknown optional question:

```text
```

```
SKIP
```

Unknown required standard question:

```text
REVIEW
```

Unknown required sensitive question:

```text
REVIEW - SENSITIVE
```

Never fabricate merely because a form made the field mandatory.

PART LI

SAFE AUTOMATIC ANSWER

CATEGORIES

Generally safe when verified:

```text
name
email
phone
city
province
postal code
country
languages
education
current employer
current title
work authorization
sponsorship
start availability
known software skills
known experience
location preference
work arrangement preference
background-check consent
```

PART LII

HIGH-RISK AUTOMATIC ANSWER CATEGORIES

Require stronger rules:

```text
criminal history
medical information
disability
ethnicity
race
sexual orientation
religion
veteran status
security clearance
government employment
```

conflict of interest
family relationship
financial interests
drug testing
credit checks
references
legal agreements
actual signature
salary strategy
vacation commitments
outside employment restrictions

PART LIII

FINAL PRE-SUBMISSION CONSISTENCY GATE

Before HunterXJob allows an application to proceed, validate:

```yaml
```

```
identity_consistent: true
employment_dates_consistent: true
education_consistent: true
salary_answer_valid: true
location_policy_valid: true
work_authorization_country_valid:
true
sponsorship_consistent: true
relocation_consistent: true
work_mode_consistent: true
experience_years_supported: true
sensitive_answers_authorized: true
legal_answers_authorized: true
conditional_fields_valid: true
no_answer_contradictions: true
no_unverified_claims: true
no_required_questions_missing: true
```

If all true:

text

```
READY
```

If not:

```text
REVIEW
```

with the exact reason.

PART LIV

LEARNING LOOP

When HunterXJob encounters a new application question:

```text
NEW QUESTION
    ↓
CLASSIFY INTENT
    ↓
SEARCH EXISTING POLICY
```

```
    ↓
SEARCH VERIFIED PROFILE
    ↓
DETERMINISTIC DERIVATION?
    ↓
YES → ANSWER
NO → REVIEW
    ↓
USER ANSWERS
    ↓
ASK WHETHER ANSWER IS:
GLOBAL / COUNTRY / COMPANY /
APPLICATION SPECIFIC
    ↓
STORE POLICY
    ↓
FUTURE APPLICATIONS NO LONGER
NEED REVIEW
```

The goal is not zero review on day one.

The goal is:

> **Every legitimate review makes the next application smarter.**

PART LV

CURRENT CANDIDATE MASTER RULES

yaml

```yaml
candidate_policy:

  location:
    city: Ottawa
    province: Ontario
    country: Canada
    display: "Ottawa, ON"
    postal_code: "K1K 4G8"
    postal_only_if_required: true

  languages:
    french:
      proficiency: native
      first_language: true
```

```
  first_language: true

  english:
    proficiency: fluent

  bilingual_en_fr: true

  preferred_language_if_forced:
    English

compensation:
  currency: CAD
  minimum_annual_salary: 60000
  approved_salary_anchors:
    - 60000
    - 70000
    - 85000
    - 95000
    - 107000

availability:
  primary: immediately
  secondary: within_2_weeks

employment:

    google_ad_manager:
      proficiency: very_good

  website:
    business: "https://melato.ca'
```

PART LVI

ABSOLUTE NO-GUESS RULE

HunterXJob must never silently invent an answer merely to achieve a higher completion rate.

The priority order is:

The priority order is:

```text
TRUTH
>
CONSISTENCY
>
APPLICATION QUALITY
>
AUTONOMY
>
SPEED
>
FORM COMPLETION %
```

A system that correctly stops on one unknown field is more reliable than a system that completes 100% of a form using fabricated information.

The desired end state is not:

> "HunterXJob answers everything."

It is:

> "HunterXJob automatically answers
